Sources and Notes

Children's Health Fact Sheets

All data are drawn directly from statehealthfacts.org, Kaiser's continuously updated database for state-level health data. More detailed notes and sources are available by following the online links from each topic on the fact sheet.

Demographic Profile and Health Insurance Coverage

Total Child Population, Children Living in Poverty, Children by Race/Ethnicity, Children by Citizenship, Children with Medicaid, Uninsured Children, Children with Employer-Sponsored

Source: KCMU and Urban Institute analysis of the Current Population Surveys (CPS), March 2008 and 2009. Notes: These demographic data may differ from Census Bureau figures due to grouping by health insurance unit (HIU) rather than household. State figures are based on pooled 2007 and 2008 data; U.S. figures are based on 2008 data. For more information on this revision, please see <http://www.statehealthfacts.org/cgi-bin/healthfacts.cgi?action=methodology>. NSD: Not Sufficient Data

Health Status

Infant Mortality and Childhood Immunizations

Source: The Centers for Disease Control and Prevention (CDC), National Center for Health Statistics. VitalStats. <http://www.cdc.gov/nchs/vitalstats.htm>. Childhood Immunizations – National Immunization Survey Q1/2007-Q4/2007, National Immunization Program, CDC.

Low Birthweight Infants and Prenatal Care

Source: The Centers for Disease Control and Prevention. National Center for Health Statistics. VitalStats. <http://www.cdc.gov/nchs/vitalstats.htm>. National Vital Statistics Report, Vol. 57, No. 7, 2009, Division of Vital Statistics, NCHS. Notes: Prenatal care excludes data for FL, ID, KS, KY, ND, NH, NY, PA, SC, TN, TX, VT and WA, which implemented the 2003 Revision of the U.S. Certificate of Live Birth after January 1, 2005.

Medicaid and SCHIP

Total Medicaid Spending, Enrollment, Per Enrollee Medicaid Spending, and Distribution by Group

Source: The Urban Institute and KCMU estimates based on data from Medicaid Statistical Information System (MSIS) reports from the Centers for Medicare and Medicaid Services (CMS) for FY2006. MSIS data for Maine are for FY2004 and for Nevada are for FY2005.

Children Enrolled in Medicaid Medically Needy

Source: Based on data analysis by the Urban Institute for the KCMU, January 2007, based on Medicaid Statistical Information System (MSIS) Data Reports, 2003, CMS, DHHS.

Medicaid Eligibility Levels, SCHIP Eligibility Levels, and Enrollment Practices

Source: Challenges of Providing Health Coverage for Children and Parents in a Recession, January 2009 based on a survey conducted by The Center for Budget and Policy Priorities for KCMU; and Medicaid Eligibility, DHHS, CMS. Notes: All dollar figures represent the annual income for a family of three. For Parents, the U.S. figures represent the median annual income in dollars and as a percent of the FPL. For other groups, the U.S. figures represent the federal minimum annual income in dollars and as a percent of the FPL.

Current Monthly SCHIP Enrollment

Source: Collected by Health Management Associates for KCMU. Data as of June 2008.

Medicaid and SCHIP FMAP

Source: Federal Register, November 26, 2008 (Vol. 73, No. 229), pp. 72052.

SCHIP Spending

Source: FY2007 SCHIP Expenditures (state and federal), CMS, Special Data Request.
