## Demographic Profile

Total Residents, Income, Age, Race/Ethnicity, Citizenship, Population Living in Non-Metropolitan Areas

*Source:* KCMU and Urban Institute analysis of the Current Population Surveys, March 2010 and 2011.

*Notes:* These demographic data may differ from Census Bureau figures due to grouping by health insurance unit (HIU) rather than household. A Metropolitan Statistical area must have at least one urban cluster of at least 10,000 but less than 50,000 population. A Non-Metropolitan Statistical Area lacks at least one urbanized area of 50,000 or more inhabitants.

Median Annual Income

*Source:* U.S. Census Bureau, Current Population Survey, 2009, 2010, and 2011. Annual Social and Economic Supplements. Three-Year-Average Median Household Income by State: 2008-2010.

## Health Insurance Coverage

Medicaid, Uninsured, Medicaid, Employer-Sponsored Insurance, Individual Insurance, Other Public, Percentage Point Change in the Rate of Coverage of the Nonelderly Population (0-64 years old)

*Source:* KCMU and Urban Institute analysis of the Current Population Survey (CPS), March 2010 and 2011.

*Notes:* State figures are based on pooled 2009 and 2010 data; U.S. figures are based on 2010 data.

## Medicaid

Total Enrollment

*Source:* The Urban Institute and KCMU estimates based on data from MSIS reports from CMS for FY2008.

% Enrolled in Managed Care

*Source:* Medicaid Managed Care Penetration Rates by State as of June 2009, CMS, DHHS.

Total Medicaid Spending in Millions

*Source:* Urban Institute estimates for KCMU based on CMS Form 64.

*Notes:* All spending includes state and federal expenditures. Expenditures include benefit payments and disproportionate share hospital payments; do not include administrative costs, accounting adjustments, or the U.S. Territories. Total spending including these additional items was about \$378.6 billion in FY 2009. Figures may not sum to totals due to rounding.

## Per Enrollee Medicaid Spending and Distribution by Group

*Source:* The Urban Institute and KCMU estimates based on data from MSIS reports from CMS for FY2008.

## Multiplier and Federal Matching Rate

*Source:* KCMU calculations based on the FMAPs as published in the Federal Register, November 30, 2011 (Vol. 76, No. 230), pp. 74061-74063.

*Notes:* The multiplier is based on the FMAP and represents the amount of federal funds a state receives for every dollar it spends on Medicaid. The rate varies year to year and is based on each state's relative per capita income.

## State Medicaid Spending as % of State General Fund

*Source:* 2010 State Expenditure Report, National Association of State Budget Officers

*Notes:* A state's general fund is the predominant fund for financing a state's operations.

## Medicaid Eligibility Levels

*Source:* Based on a national survey conducted by the Kaiser Commission on Medicaid and the Uninsured with the Georgetown University Center for Children and Families, 2012

*Notes:* All dollar figures represent the annual income for a family of three.

## Medicaid and Medicare Dual Eligibles

*Sources:* The Urban Institute and KCMU estimates based on data from MSIS and CMS-64 reports from CMS for 2007.

*CMS Statistics:* Medicare State Enrollment, CMS. *An Update on the Clawback: Revised Health Spending Data Change State Financial Obligations for the New Medicare Drug Benefit*, KCMU, March 2006.

## CHIP

### Eligibility Income Level for a Family of Three

*Source:* Data based on a national survey conducted by the Georgetown University Center for Children and Families and the Kaiser Commission on Medicaid and the Uninsured, January 2012.

*Notes:* The levels are for separate CHIP programs only.

### Current CHIP Enrollment

*Source:* Collected by Health Management Associates for KCMU. Data as of December 2010.

*Notes:* Figures represent the current monthly enrollment. TN phased out its Medicaid expansion program in September 2002. In March 2007, the state implemented a new CHIP program called CoverKids.
